Tampa General Hospital (**TGH**), and CPA firm KPMG, LLP, are always the **criminal** entities. Since **TGH** is a large subsidiary of Florida Health Sciences Center, Inc (**FHSC**), I use **TGH**.

How can **We The Slaves**, I meant to write **We The People**, best combat **TGH-Embezzle**?

I would NEVER recommend this, but **We The Slaves** **COULD** stop paying our hospital bills...

What? Why? Wouldn't that just allow entities, like **TGH**, to embezzle even **MORE cash**?

Yes, that is correct, but think it through. **TGH-Embezzle** reduces both revenue, and profit.

So, if an entity, like **TGH**, suddenly had **DOUBLE** their bad debt, their profit would go down.

So, if an entity, like **TGH**, suddenly had **Four times** the bad debt, their profit would TANK.

So, if an entity, like **TGH**, suddenly had **ELEVEN x** the bad debt, their profit would, um...

Yes, it is true. **We The Slaves** can become **We The People**, again, by pulling ourselves...
...up by our own boot-straps. **We The Slaves** can have more money in our pockets by...
...simply refusing to pay our copays, and our deductibles. Then, if we are refused service...
...we can just swamp their emergency rooms, because the lack of regular care will soon...
...result in lots of horrible situations that are, you know, **REAL emergencies**, and since...
...hospitals (like **TGH**) can **NOT** refuse to treat TRUE emergency situations, we can beat...
...them, at their own game, by feeding them SO MUCH of **OUR cash** that they **choke on it**.

Example:	Regular	Double	Four Times
True Revenue	3,200,000,000	3,200,000,000	3,200,000,000
Embezzled Cash	200,000,000	400,000,000	800,000,000
Reported Revenue	3,000,000,000	2,800,000,000	2,400,000,000
Expenses	2,700,000,000	2,700,000,000	2,700,000,000
Net Profit	300,000,000	100,000,000	(300,000,000)

FYI, eleven times the bad debt would be, well, it would make their audit report unbelievable.

If **We The Slaves**, I mean **We The People**, really did do this, we would win two ways:
1) We would immediately have more cash in our pockets, because our costs would go down.
2) We would hasten the downfall of the **corrupt TGH-Embezzle** system (by drowning it).

I have a sea shell collection. Really, you say? I keep it on the beaches all over the world...

TGH-Embezzlers have slaves, and they keep us all over the world. We are ALL slaves to...
...this **corrupt** system. It's about time that **We The Slaves**, I mean **We The People**, take it...
...to the "people" (and I use that term loosely) who have, for so long, enslaved us.

I'm NOT saying to do this, but instead, I'm just trying to educate my people, **We The Slaves**.
