

This is "The Tax Paper," and it will allow for a quick resolution of any...
...complaint that I filed with "CPA State Boards of Accountancy (BOA)."

Prior to reading this one-page paper, you **SHALL** have already read...
...my 8 "**Juneteenth National Independence**" books, because if you...
...did **not** already read those books, you will **not** understand this paper.

I call my books that, because I want to free "**We The People**" from the...
...**Professional Embezzling Monetary Rapists (PEMR)** who enslave...
...virtually everyone who is not a **PEMR**. Few **We The People** slaves...
...achieve the rags-to-riches American Dream that we all try to achieve.

1st, "The Short Paper" was about compliance with FASB ASU 2014-09.
2nd, this paper, is about the true identify of certain tax deductions...

For Florida Health Sciences Center, and Subsidiaries (**FHSC**), and...
...their subsidiary Tampa General Hospital (**TGH**), this "Tax Paper"...
...will be about the EXACT nature of their tax return deductions that...
...I show in Book F on pages 6, 7, and 8. Since 1 of those line items...
...is HUGE, that is, in comparison to the other 2 line items, we'll just...
...concentrate on the FY-2023 "Part IX" line item 11g, and leave line...
...items 24b, and 24e out of it, at least for now.

Line 11 (on IRS tax Form 990) is "Fees for services (non-employees),"...
...and for FY-2023, **TGH** had the value 142,123,420... **TGH**, why don't...
...you just tell us what makes up that absolutely **HUGE** \$142+M value?

For FY-2023, below, which line item includes that 142,123,420 value?

Expenses:

Salaries and benefits	1,026,730,163
Medical supplies	604,299,823
Other	387,264,799
Purchased services	386,676,566
Depreciation and amortization	87,463,425
Interest	31,908,671

Total expenses

2,524,343,447

< Bad debt is not in here...!

Oh, that 142,123,420 value is mostly just **BAD DEBT**. Oh, ok. Thanks.
