## **Independent Auditors' Report**

Board of Directors  
DeKalb Regional Health System, Inc. and Subsidiaries  
Decatur, Georgia

We have audited the accompanying consolidated financial statements of DeKalb Regional Health System, Inc. and Subsidiaries (the "System"), which comprise the consolidated balance sheets as of June 30, 2017 and 2016, and the related consolidated statements of operations, changes in net assets, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

### ***Management's Responsibility for the Consolidated Financial Statements***

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditors' Responsibility***

Our responsibility is to express an opinion on the consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the System's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the System's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Opinion***

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of DeKalb Regional Health System, Inc. and Subsidiaries as of June 30, 2017 and 2016, and the results of their operations and their cash flows for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

***Emphasis of Matter – Change in Accounting Principle***

As discussed in Note 2 to the consolidated financial statements, during the year ended June 30, 2017 the System implemented new accounting guidance that requires retrospective adjustments to amounts previously reported as of and for the year ended June 30, 2016. Our opinion is not modified with respect to this matter.

***Report on Supplementary Information***

Our audits were made for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The supplementary consolidating information is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position, results of operations, and changes in net assets of the individual entities, and it is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

## Notes to Consolidated Financial Statements

### 1. Organization

The consolidated financial statements of DeKalb Regional Health System, Inc. ("DRHS" or the "System") include the accounts of DeKalb Medical Center, Inc. ("DMC"), Decatur Health Resources, Inc. ("Resources"), DeKalb Medical Center Foundation, Inc. (the "Foundation"), and DRHS Ventures, Inc. ("Ventures"). DRHS is the sole corporate member of DMC, Resources, and Ventures, and appoints the board of trustees of the Foundation.

DMC operates DeKalb Medical at North Decatur ("North Decatur"), a 451 bed general acute care hospital with a freestanding surgery center, and DeKalb Medical at Hillandale ("Hillandale"), a 100 bed general acute care hospital. DMC is a Georgia not-for-profit corporation and is the sole corporate member of certain limited liability corporations that do business as DeKalb Medical Physician Network (the "Physician Network"). The Physician Network owns and operates a network of primary care, occupational, and specialty physician practices.

Resources operates DeKalb Medical at Downtown Decatur ("Downtown Decatur"), a 76 bed long-term acute care hospital.

The Foundation was formed for the purpose of supporting DMC and related organizations through fundraising and similar support activities.

Ventures was formed for the purpose of participation in certain healthcare joint ventures and does not have material activity.

In April 1992, the DeKalb County Hospital Authority (the "Authority"), an instrumentality of DeKalb County, Georgia, entered into a lease and transfer agreement (the "Lease") with DMC, under which DMC leased from the Authority the healthcare facilities at North Decatur and certain other real property for a period of 40 years. Under the terms of the Lease, DMC assumed substantially all liabilities and obligations of the Authority, and agreed to provide emergency services, inpatient and outpatient hospital services, physician services, and indigent care to the community operating the leased facilities as a not-for-profit organization.

The Lease has periodically been amended to incorporate both changes in the System's capital and operating structure, and updates to the constitution of the "obligated group" responsible for repayment of long-term debt. In June 2009, the Lease term was extended through June 2049. The Lease was most recently amended in May 2010.

Pursuant to the Lease, the System makes \$1 annual lease payments to the Authority and is responsible for all debt service payments and reserve funding requirements in connection with conduit debt issued by the Authority on behalf of the System. Upon expiration of the Lease, the System will transfer to the Authority all leased and related assets and operations, subject to related debts and liabilities. The Lease may be terminated at any time by mutual consent of the Authority and DMC or by reason of default, as defined in the Lease.

#### *Potential Partnership*

During 2017, the System Board of Directors approved sending formal requests for proposal to various health systems to explore a potential affiliation. The Board and management are currently evaluating the proposals received by the System in response to its requests. While the System is hopeful of entering some type of affiliation, which may include, but is not limited to a membership substitution, acquisition or merger, during fiscal 2018, there can be no assurance that such a transaction will in fact be consummated.

**DeKalb Regional Health System, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (all tabular amounts in thousands)**

---

**2. Summary of Significant Accounting Policies**

A summary of the significant accounting and reporting policies applied by the System in the preparation of its consolidated financial statements follow.

***Principles of Consolidation***

All significant intercompany transactions and accounts have been eliminated in consolidation.

***Use of Estimates***

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires that management make estimates and assumptions affecting the reported amounts of assets, liabilities, revenues, and expenses, as well as disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Significant items subject to such estimates and assumptions include the determination of the allowances for uncollectible accounts and contractual adjustments, reserves for general and professional liability claims, reserves for workers' compensation claims, reserves for employee healthcare claims, estimated third-party payor settlements, asset retirement obligation, valuation of alternative investments, and the actuarially determined amounts related to the System's defined benefit pension plan. In addition, laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates related to these programs will change by a material amount in the near term.

***Cash and Cash Equivalents***

Cash and cash equivalents consist of cash on hand, deposits with banks, and investments in money market funds with maturities of three months or less when purchased, excluding assets limited as to use. The System invests cash not required for immediate operating needs principally with major financial institutions with strong credit ratings. By policy, the amount of credit exposure to any one institution is limited, and such investments are generally not collateralized.

***Investments***

Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value in the consolidated balance sheets. The System considers all of its investments to be trading securities. As a matter of policy, the System maintains in current investments an amount equal to approximately 5% of the prior fiscal year total of investment funds, including assets limited as to use.

Investment income (including realized and unrealized gains and losses on investments, interest and dividends) is included in revenues, gains, and other support less than expenses and losses unless the income or loss is restricted by donor or law.

The System also holds alternative investments which represent investments in hedge funds through funds of funds structures generally organized as limited partnerships. The System's alternative investments are recorded using net asset value ("NAV") as a practical expedient for fair value. The NAV of the funds is equal to gross assets less gross liabilities, at fair value, as of any valuation or redemption date. The change in the carrying amount is reported as investment income or loss in the accompanying consolidated statements of operations.

These alternative investments may have less liquidity, a stale quoted price, or varying prices from independent sources. For these funds of funds, the System receives account statements directly from independent administrators or the underlying hedge fund managers, who are responsible for the pricing of these funds. Before reliance on these valuations, the System evaluates the investee fund's fair value estimates for underlying investments, the investee fund's use of independent third party valuation experts, and the professional reputation of the investee fund's auditor. Fair value determinations for these investments require the use of estimates.

**DeKalb Regional Health System, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (all tabular amounts in thousands)**

---

Accordingly, such values may differ from the values that would have been used had a ready market for these investments existed.

***Pledges Receivable and Donor Restricted Gifts***

Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. These pledges receivable are discounted to their present value, and are reported as temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets.

When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of operations and changes in net assets as net assets released from restriction.

Donor-restricted contributions for which restrictions are met within the same year as received are reported as unrestricted contributions in the accompanying consolidated statements of operations. To the extent that restricted resources from multiple donors are available for the same purpose, the System expends such gifts on a "first-in, first-out" basis.

***Inventories***

Inventories are valued at the lower of cost (first-in, first-out) or market. Inventories consist primarily of pharmaceuticals and medical supplies and are recorded within other current assets in the accompanying consolidated balance sheets. Inventories totaled approximately \$7,564,000 and \$7,243,000 as of June 30, 2017 and 2016, respectively.

***Assets Limited as to Use***

Assets limited as to use include cash and investments that are externally restricted under debt agreements and by donors, as well as assets that are internally designated by the board of directors for replacement or expansion of facilities, purchases of property and equipment, payment of future debt service requirements, professional liability self-insurance funding, and future pension funding. Amounts required to meet current obligations have been classified as current assets.

***Property and Equipment***

Property and equipment acquisitions are recorded at cost, with the exception of donated items, which are recorded at fair value at the date of donation. Expenditures for renewals and improvements are capitalized. For properties sold or retired, the cost and related accumulated depreciation are removed. Any resulting gains or losses are included in other revenue. Replacements, maintenance, and repairs that do not improve or extend the life of the respective assets are charged to operations. Depreciation is provided over the estimated useful life of each class of depreciable assets and is computed using the straight-line method. The estimated useful lives are 40 years for land improvements, 20 – 40 years for buildings, and 3 – 10 years for equipment and fixtures. Capitalized interest is calculated on qualifying projects with a completion time frame of greater than 90 days. The implied interest rate is calculated based on the rates applicable to long-term debt outstanding during the respective period.

Gifts of long-lived assets such as land, buildings, or equipment are reported as unrestricted support and are excluded from revenues, gains, and other support less than expenses and losses unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used, and gifts of cash or other assets that must be used to acquire long-lived assets, are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

**DeKalb Regional Health System, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (all tabular amounts in thousands)**

---

***Impairment of Long-lived Assets***

Long-lived assets, such as property and equipment and purchased intangibles subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized to the extent that the carrying amount of the asset exceeds its fair value.

***Other Assets***

Other assets include the System's interests in the following related parties that provide services in part to the System:

Distribution Cooperative, Inc.

The System holds a 20% equity interest in Distribution Cooperative, Inc. ("DCI"), a centralized supply purchasing and distribution business owned by eight Georgia health systems. The System's investment in DCI is recorded using the equity method of accounting and totaled approximately \$2,341,000 and \$2,591,000 as of June 30, 2017 and 2016, respectively.

DeKalb Surgical Alliance, LLC

DeKalb Surgical Alliance, LLC ("DSA"), a Georgia limited liability company, manages the outpatient surgical program at DMC. Ventures owns 44% of DSA. The System's investment in DSA is recorded using the equity method of accounting and totaled approximately \$28,000 and \$6,000 as of June 30, 2017 and 2016, respectively.

***Temporarily Restricted Net Assets***

Temporarily restricted net assets are those whose use by the System is restricted by the donor for a specific time period or purpose.

The System applies relevant authoritative accounting guidance for not-for-profit organizations related to the net asset classification of donor-restricted endowment funds that are subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act of 2006. In addition, as a matter of policy, the System's board of directors has interpreted Georgia's State Prudent Management of Institutional Funds Act as requiring the preservation of the fair value of an original donor-restricted endowment gift as of the gift date, absent explicit donor stipulations to the contrary. To the extent that income from any donor-restricted endowment funds is itself restricted to specific donor-directed purposes, such income is accounted for within temporarily restricted net assets until appropriated for expenditure in accordance with the donor's wishes. The System would oversee any individual donor-restricted endowment funds to ensure that the fair value of the original gift is preserved and would invest any donor-restricted endowment funds within the framework of the System's overall investment management program, as described elsewhere in the consolidated financial statements.

The System has not received any donor-restricted endowment funds, and does not maintain any Board-designated endowments at either June 30, 2017 or 2016.

***Revenues, Gains, and Other Support Less than Expenses and Losses***

The consolidated statements of operations include revenues, gains, and other support less than expenses and losses. Changes in unrestricted net assets that are excluded from revenues, gains, and other support less than expenses and losses, consistent with relevant accounting literature and industry practice, include permanent transfers of assets to and from affiliates and related parties for items other than goods and services, contributions of long-lived assets (including assets acquired using contributions that, by donor restriction, were to be used for the purpose of acquiring such assets), effects of changes in accounting policies, and certain pension accounting items.

**DeKalb Regional Health System, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (all tabular amounts in thousands)**

---

***Net Patient Service Revenue***

Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including an estimated provision for uncollectible accounts and revenue adjustments under reimbursement agreements with third-party payors. Estimates related to third-party payor settlements are recorded in the period the related services are rendered and are adjusted in future periods as settlements become known and as cost reporting periods are no longer subject to such audits, reviews, and investigations.

***Charity Care***

Consistent with the System's mission, services are provided to all patients without regard for ability to pay. The System provides services to patients who qualify for charity services pursuant to established policies of the System.

Charity services are defined as those for which patients have the obligation and willingness to pay but do not have the ability to do so. Charges related to charity services are written off as charity care in accordance with established policies and are not recognized as net patient service revenue. The estimated cost to provide charity care totaled approximately \$24,423,000 and \$22,996,000 for the years ended June 30, 2017 and 2016, respectively. The System estimates the cost of charity based on a ratio of cost to charges, which is applied to the uncompensated charges for charity services.

***Estimated General and Professional Liability Costs***

The provision for estimated general and professional liability claims, which is reported in supplies and other expenses in the accompanying consolidated statements of operations, includes estimates of the ultimate costs for both reported claims and claims incurred but not reported.

***Costs of Borrowing***

Debt issuance costs and any premiums or discounts are amortized over the term of the related debt and included as a direct reduction to long-term debt. Interest costs incurred on borrowed funds during the period of construction of capital assets are capitalized as a component of the cost of acquiring those assets, after reduction for investment earnings on any associated trusted funds restricted to financing such construction.

***Income Taxes***

The System, DMC, DHR, and the Foundation are exempt from federal income taxes pursuant to Section 501(a) as organizations described in Section 501(c)(3) of the Internal Revenue Code of 1986, as amended. Ventures is a taxable entity and annually files a corporate tax return. With respect to its for-profit entity, as well as any unrelated business income generated in the tax-exempt entities, the System records income taxes using the asset and liability method under which deferred tax assets and liabilities are determined based on the differences between the financial accounting and tax bases of assets and liabilities. Deferred tax assets or liabilities at the end of each period are determined using the currently enacted tax rate expected to apply to taxable income in the period that the deferred tax asset or liability is expected to be realized or to be settled.

The System has evaluated its tax positions and has determined that it does not have any material unrecognized tax benefits or obligations as of June 30, 2017 and 2016, nor is income tax accounting otherwise significant with respect to the System's taxable subsidiaries.

***Asset Retirement Obligation***

The System recognizes the fair value of its liability for legal obligations associated with asset retirements in the period incurred, if a reasonable estimate of the fair value of the obligation can be made. When the liability is initially recorded, the System capitalizes the cost of the asset retirement obligation by increasing the carrying amount of the related long-lived asset. Over time, the liability is accreted to its present value each period, and the capitalized cost associated with the retirement obligation is depreciated over the useful life of the related asset. Upon settlement

**DeKalb Regional Health System, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (all tabular amounts in thousands)**

of the obligation, any difference between the cost to settle the asset retirement obligation and the recorded liability is recognized as a gain or loss in the consolidated statement of operations.

***Pension Accounting***

The System applies authoritative accounting guidance related to the recognition and disclosure of retirement benefits, which requires the recognition of the funded or unfunded status of its defined benefit pension plan in the consolidated balance sheets. The System measures plan assets and benefit obligations as of the end of the fiscal year.

***Adoption of New Accounting Standards Updates***

During the year ended June 30, 2017, the System implemented FASB Accounting Standard Update 2015-03, *Interest-Imputation of Interest (Subtopic 835-30); Simplifying the Presentation of Debt Issuance Costs* ("ASU 2015-03"). The amendments in this update require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. Prior to the adoption of ASU 2015-03, the System reported debt issuance costs as an asset in the consolidated balance sheets. As a result of the retrospective application of the adoption of ASU 2015-03, the debt issuance costs as of June 30, 2016, have been reclassified and presented as a direct deduction from long-term debt in the consolidated balance sheets consistent with the presentation as of June 30, 2017.

During the year ended June 30, 2017, the System implemented FASB Accounting Standard Update 2017-07, *Compensation-Retirement Benefits (Subtopic 715); Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost* ("ASU 2017-07"). The amendments in this update require the service cost component of net periodic benefit cost be reported in the same line item or items as other compensation costs arising from services rendered by the pertinent employees during the period. The other components of net periodic benefit cost are required to be presented in the income statement separately from the service cost component and outside a subtotal of income from operations. Prior to the adoption of ASU 2017-07, the System reported net periodic pension cost as salaries and benefits operating expense in the consolidated statement of operations. As a result of the retrospective application of the adoption of ASU 2017-07, all non-service components of net periodic pension cost as of June 30, 2016, have been reclassified and presented within nonoperating gains and losses in the consolidated statements of operations. As a practical expedient, the System has used the amounts disclosed in its pension plan notes for the prior comparative periods as the estimation basis for applying the retrospective presentation requirements.

The effect of restatements due to ASU 2015-03 and ASU 2017-07 are as follows:

	<u>2016 as Previously Reported</u>	<u>Restatement Adjustment</u>	<u>2016 as Adjusted</u>
<b>ASU 2015-03</b>			
Consolidated Balance Sheets:			
Other assets	\$ 5,377	\$ (2,319)	\$ 3,058
Total assets	410,586	(2,319)	408,267
Long-term debt and capital lease obligations, net of current installments	174,800	(2,319)	172,481
Total liabilities	289,296	(2,319)	286,977
<b>ASU 2017-07</b>			
Consolidated Statement of Operations:			
Salaries and benefits	\$ 274,298	\$ (2,664)	\$ 271,634
Total expenses	486,789	(2,664)	484,126
Operating loss	(20,310)	2,664	(17,646)
Unrealized loss on non-service components of net period pension cost	-	2,664	2,664

**DeKalb Regional Health System, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (all tabular amounts in thousands)**

---

During the year ended June 30, 2017, the System implemented FASB Accounting Standard Update 2015-07 *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*. This update removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. As a result of the retroactive application of this guidance, certain disclosures previously reported in Note 13 for 2016 have been reclassified to conform to the 2017 presentation. These reclassifications had no impact on the recognition or measurement of any amounts reported in the consolidated financial statements.

***Subsequent Events***

Management has evaluated subsequent events from the consolidated balance sheet date through October 27, 2017, the date at which the consolidated financial statements were available to be issued. No subsequent events requiring recognition in the consolidated financial statements were identified by the System that have not otherwise been incorporated in the consolidated financial statements and related footnote disclosures.

**3. Net Patient Service Revenue and Patient Accounts Receivable**

The System recognizes revenue associated with services provided to patients with third-party payor coverage based on contractual rates for the services rendered. For uninsured patients that do not qualify for charity care, the System recognizes revenue based on standard or discounted rates for the services provided.

For receivables associated with self-pay patients, which includes both uninsured patients and balances related to deductibles and copayments for patients who have third-party insurance coverage, management records a provision for uncollectible accounts in the period of service on the basis of past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible. The difference between standard or discounted rates and the amounts actually collected after all reasonable collection efforts have been exhausted is charged against the allowance for uncollectible accounts.

Management routinely assesses, in the normal course of business, the adequacy of the allowance for uncollectible accounts based upon its assessment of factors such as historical collection rates, expected future collection rates considering business and economic conditions, trends in healthcare insurance coverages, and other collection indicators by payor category, and adjusts the allowance and related provision accordingly. For receivables associated with services provided to patients who have third-party insurance coverage, management analyzes contractually due amounts and provides an allowance for uncollectible accounts and a related provision if realization of such amounts due is considered unlikely.

**DeKalb Regional Health System, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (all tabular amounts in thousands)**

A summary of net patient service revenue for the years ended June 30 follows:

	<u>2017</u>		
	<u>Third-party payor</u>	<u>Self-pay</u>	<u>Total</u>
Patient service charges	\$ 1,433,092	\$ 148,228	\$ 1,581,320
Less:			
Provision for uncollectible accounts	29,714	51,510	81,224
Contractual adjustments and other deductions	<u>935,004</u>	<u>91,710</u>	<u>1,026,714</u>
Net patient service revenue	<u>\$ 468,374</u>	<u>\$ 5,008</u>	<u>\$ 473,382</u>
	<u>2016</u>		
	<u>Third-party payor</u>	<u>Self-pay</u>	<u>Total</u>
Patient service charges	\$ 1,336,446	\$ 129,800	\$ 1,466,246
Less:			
Provision for uncollectible accounts	19,325	44,187	63,512
Contractual adjustments and other deductions	<u>875,268</u>	<u>75,378</u>	<u>950,646</u>
Net patient service revenue	<u>\$ 441,853</u>	<u>\$ 10,235</u>	<u>\$ 452,088</u>

The System has agreements with third-party payors that provide for payments to the System at amounts different from its established rates. A summary of payment arrangements with major third-party payors follows:

***Medicare and Medicaid***

The System provides care to patients covered by the Medicare and Medicaid programs. Most inpatient and outpatient hospital services rendered to Medicare program beneficiaries are paid at prospectively determined rates per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors.

Inpatient services rendered to Medicaid program beneficiaries are reimbursed under a prospective payment reimbursement methodology. Outpatient services are reimbursed under a cost-based methodology. The System is reimbursed at a tentative rate with final settlement determined after submission of annual cost reports by the System and audits thereof by the Medicaid fiscal intermediary.

Services rendered under these programs are recorded at established rates and reduced to the estimated amount due from the third-party payors through recording of contractual adjustments and other discounts. Because the System cannot pursue collections for contractual and similar discounts, they are not reported as net patient service revenue.

Net patient service revenue from the Medicare and Medicaid programs accounted for approximately 50% and 46% of the System's net patient service revenue for the years ended June 30, 2017 and 2016, respectively.

Estimated third-party payor settlements represent management's best estimate of anticipated settlements related to audit adjustments and other related matters for open cost report years. Medicare cost report years 2011 and prior and Medicaid cost report years 2013 and prior have been final settled as of June 30, 2017. The System provides estimated settlement reserves and receivables in recognition of the complexity of relevant reimbursement regulations and the contingent nature of related settlement processes. Third-party payor settlement estimates may differ from actual experience by material amounts. During fiscal 2017 and 2016, net patient service revenue increased by approximately \$189,000 and \$3,233,000, respectively, due to changes in estimates related to prior cost reporting periods.

**DeKalb Regional Health System, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (all tabular amounts in thousands)**

---

The Health Information Technology for Economic and Clinical Health ("HITECH") Act was enacted as part of the American Recovery and Reinvestment Act of 2009 and requires that healthcare providers implement and make meaningful use of certified Electronic Health Record ("EHR") technology. The HITECH Act includes monetary incentives and payment penalties to encourage the adoption of EHR technology. The System anticipates that its current efforts at implementing an enterprise-wide EHR will enable its compliance with the meaningful use objectives mandated in the HITECH legislation. The System recognizes incentive payments ratably in the reporting period in which they have met the related meaningful use criteria. The System reported other income in the fiscal 2016 consolidated statement of operations from the Medicare and Georgia Medicaid EHR incentive payment programs of approximately \$850,000. No income from the program was received during fiscal 2017 as the System had received all eligible payments.

The System participates in the Indigent Care Trust Fund ("ICTF") program. Under the provisions of the ICTF program, Medicaid disproportionate share ("DSH") hospitals contribute funds to be used by the Georgia Department of Community Health in the Medicaid program, and those funds are supplemented by federal funds. The combined funds are returned to the DSH hospitals in the form of additional reimbursement. The System recorded net patient service revenue from the ICTF program for fiscal 2017 and 2016 of approximately \$5,274,000 and \$5,900,000, respectively, in the accompanying consolidated statements of operations.

The System participates in the Medicaid Upper Payment Limit ("UPL") program and recorded net patient service revenue of approximately \$1,976,000 and \$2,500,000 from the program during fiscal 2017 and 2016, respectively, in the accompanying consolidated statements of operations.

There is no assurance that the System will continue to qualify for future participation in the ICTF and UPL programs or that the programs will continue without material modifications. Any reduction in the funds provided by the programs would have a direct corresponding effect on the System's operating results.

***Managed Care and Other Payors***

The System has entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The bases for payments to the System under these agreements include prospectively determined rates per discharge, discounts from established charges, and daily rates.

**DeKalb Regional Health System, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (all tabular amounts in thousands)**

**4. Investments and Assets Limited as to Use**

***Assets Limited as to Use***

The composition of assets limited as to use as of June 30 is set forth in the following table:

	<u>2017</u>	<u>2016</u>
Internally designated for specific purposes:		
Cash and cash equivalents	\$ 2,729	\$ 2,901
U.S. Treasury and agency obligations and bond funds	5,893	15,590
Foreign government bonds and bond funds	18,331	25,899
Domestic corporate bonds and bond funds	36,308	28,401
Asset and mortgage-backed securities	15,056	18,814
Foreign corporate bonds and bond funds	3,143	7,318
Domestic equity securities	19,363	26,024
Foreign equity securities	8,261	14,099
Hedge funds	4,739	8,130
Domestic exchange-traded funds	<u>3,507</u>	<u>3,568</u>
	<u>117,330</u>	<u>150,744</u>
Held by trustee under indenture agreement:		
Cash and cash equivalents	7,743	6,942
U.S. agency obligations	9,744	9,891
Domestic corporate bonds	<u>4,593</u>	<u>4,060</u>
	<u>22,080</u>	<u>20,893</u>
Foundation held funds, both donor restricted and otherwise limited as to use:		
Cash and cash equivalents	986	759
U.S. Treasury and agency obligations	278	604
Domestic corporate bonds	417	542
Domestic equity and asset-backed securities	1,688	1,389
Foreign corporate bonds	50	73
Domestic exchange-traded funds	<u>2,170</u>	<u>1,969</u>
	<u>5,589</u>	<u>5,336</u>
	<u>144,999</u>	<u>176,973</u>
Less amounts classified as current	<u>7,126</u>	<u>7,039</u>
	<u>\$ 137,873</u>	<u>\$ 169,934</u>

Amounts held by trustee under indenture agreement are maintained in accordance with the trust indentures for the revenue bonds described in Note 7. Current amounts include trustee-held cash and cash equivalents restricted for fiscal 2017 debt service requirements.

**DeKalb Regional Health System, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (all tabular amounts in thousands)**

**Investments**

The composition of investments as of June 30 is set forth in the following table:

	<u>2017</u>	<u>2016</u>
Cash and cash equivalents	\$ 178	\$ 148
U.S. Treasury obligations	385	747
U.S. agency obligations	-	45
Foreign government agency bond and bond funds	1,197	1,316
Domestic corporate bonds and bond funds	2,370	1,443
Asset and mortgage-backed securities	983	950
Foreign corporate bonds and bond funds	205	378
Domestic equity securities and equity funds	1,264	1,322
Foreign equity securities	539	716
Hedge funds	309	413
Domestic exchange-traded funds	229	181
	<u>\$ 7,659</u>	<u>\$ 7,659</u>

**5. Property and Equipment**

A summary of property and equipment as of June 30 follows:

	<u>2017</u>	<u>2016</u>
Land and land improvements	\$ 7,312	\$ 6,952
Buildings and fixtures	336,102	335,341
Equipment and information systems	275,848	269,826
	<u>619,262</u>	<u>612,119</u>
Less accumulated depreciation	505,067	487,806
	<u>114,195</u>	<u>124,313</u>
Construction in progress	4,146	2,180
Property and equipment, net	<u>\$ 118,341</u>	<u>\$ 126,493</u>

Depreciation expense for fiscal 2017 and 2016 totaled approximately \$17,757,000 and \$19,764,000, respectively.

Construction in progress at June 30, 2017 principally relates to certain technology upgrades and renovations at existing facilities. There are no significant commitments associated with the expected completion of such projects in fiscal 2018.

**DeKalb Regional Health System, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (all tabular amounts in thousands)**

**6. Asset Retirement Obligation**

The System has determined that a conditional legal obligation exists for certain of its facilities related to the abatement of asbestos materials. The following table presents the activity for the System's asset retirement obligation during fiscal 2017 and 2016:

	<u>2017</u>	<u>2016</u>
Asset retirement obligation:		
Balance at beginning of year	\$ 8,600	\$ 8,256
Accretion expense	<u>388</u>	<u>344</u>
Balance at end of year	<u>\$ 8,988</u>	<u>\$ 8,600</u>
Capitalized cost:		
Additional cost basis	\$ 6,313	\$ 6,313
Accumulated depreciation	<u>(3,392)</u>	<u>(3,270)</u>
Balance at end of year	<u>\$ 2,921</u>	<u>\$ 3,043</u>

**7. Long-term Debt and Capital Lease Obligation**

Long-term debt and capital lease obligation as of June 30 are as follows:

	<u>2017</u>	<u>2016</u>
Revenue Anticipation Certificates Series 2010 of the Authority, less unamortized discount of approximately \$1,623,000 and \$1,742,000 at June 30, 2017 and 2016, respectively; issued in May 2010, with interest ranging from 4.0% to 6.125%; interest payments due semiannually on March 1 and September 1; principal payments due annually through 2040; secured by gross revenues	\$ 174,332	\$ 177,583
Capital lease obligation	<u>-</u>	<u>712</u>
	174,332	178,295
Less current portion	3,545	3,495
Less unamortized bond issuance costs	<u>2,137</u>	<u>2,319</u>
	<u>\$ 168,650</u>	<u>\$ 172,481</u>

On September 1, 1993, DMC entered into a master trust indenture ("MTI") with a commercial bank as the trustee, in which DMC pledged its gross revenues to the payment of all obligations issued from time to time under the terms of the MTI. Such obligations take the form of tax-exempt issuances of the Authority, the proceeds of which are loaned to the System as conduit obligations under related loan agreements. Such conduit debt obligations issued under the MTI are secured by a lien on the gross revenues of the members of the obligated group which have joint and several liability for such obligations. The obligated group is currently composed of DRHS, DMC and the Physician Network entities. Resources, Ventures, and the Foundation are considered restricted affiliates under the MTI, but are not members of the obligated group. The MTI provides the terms for the addition and removal of members of the obligated group.

**DeKalb Regional Health System, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (all tabular amounts in thousands)**

In May 2010, the Authority issued \$183,105,000 of Series 2010 Revenue Anticipation Certificates (the "Series 2010 Certificates"). In connection with the issuance of the Series 2010 Certificates, the Authority entered into a loan agreement with the System under which the Authority loaned the proceeds of the Series 2010 Certificates to the System to refund the previously issued Series 1999B Certificates, Series 2003B Certificates and Series 2005 Certificates. The proceeds were used to defease the refunded debt, to establish a debt service reserve fund, and to finance the cost of certain capital improvements to System facilities. The Series 2010 Certificates have outstanding sinking fund redemptions and maturities ranging from \$3,240,000 to \$13,305,000 through fiscal year 2041. The MTI and related loan agreements subject the obligated group to certain financial and nonfinancial covenants typical of such agreements.

Aggregate future maturities of the System's long-term debt (excluding capital lease) are as follows:

Year ending June 30:

2018	\$	3,545
2019		3,730
2020		3,930
2021		4,135
2022		4,350
Thereafter		<u>156,265</u>
		175,955
Less net unamortized discount		<u>1,623</u>
	<u>\$</u>	<u>174,332</u>

During 2016, the System entered into a capital lease agreement. Outstanding principal payments (totaling approximately \$162,000) amounted to approximately \$712,000 at June 30, 2016. Interest is at 6%, principal and interest payments are due monthly through June 2023, and the lease is collateralized by the leased equipment. Total annual payments amount to approximately \$125,000. The equipment serving as collateral for the lease had a carrying value of approximately \$712,000 at June 30, 2016.

During 2017, an agreement was reached with the lessor and payment was made to extinguish the capital lease.

## **8. Interest Rate Swaps**

Effective June 2009, the System entered into a forward-starting interest rate swap whereby the System exchanges payments based on the SIFMA Municipal Swap Index with a counterparty for payments equal to 67% of LIBOR plus 0.40% on a monthly basis, as calculated by reference to an agreed notional principal amount of approximately \$33,955,000 at June 30, 2017. The fair value of the interest rate swap was an asset of approximately \$99,000 and \$338,000 at June 30, 2017 and June 30, 2016, respectively.

The System entered into another forward-starting interest rate swap agreement as of June 9, 2008 related to the Series 2005 Certificates with an effective date of June 1, 2009. Under the interest rate swap agreement, the System exchanges the SIFMA Municipal Swap Index with a counterparty for 75.06% of LIBOR, on a monthly basis, as calculated by reference to an agreed notional principal amount. At June 30, 2017, the notional principal amount was approximately \$33,955,000. The fair value of the interest rate swap was a liability of approximately \$635,000 and \$739,000 at June 30, 2017 and 2016, respectively.

These interest rate swaps expire on September 1, 2035. The System has not elected hedge accounting for any of its interest rate swap agreements and, therefore, the (decrease) increase in fair value of the liability of approximately (\$134,000) and \$422,000 during fiscal 2017 and 2016, respectively, is reported in the accompanying consolidated statements of operations. The change in fair value of the interest rate swaps has no effect on the System's cash

**DeKalb Regional Health System, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (all tabular amounts in thousands)**

flows. The System posted collateral in an escrow deposit related to the swaps of approximately \$969,000 and \$700,000 at June 30, 2017 and 2016, respectively.

**9. Temporarily Restricted Net Assets**

The composition of temporarily restricted net assets follows at June 30:

	<u>2017</u>	<u>2016</u>
Donor-restricted investments held by the Foundation	\$ 3,082	\$ 3,432
Other	<u>847</u>	<u>735</u>
Temporarily restricted net assets	<u>\$ 3,929</u>	<u>\$ 4,167</u>

**10. Employee Benefits**

The System has a trustee noncontributory defined benefit pension plan (the "Plan") covering substantially all of its employees. The Plan's benefits are based on a combination of years of service and employee compensation levels. The System's funding policy is to contribute annually to the Plan an amount sufficient to meet minimum funding policies or to otherwise maintain the Plan on a sound actuarial basis, as certified by an enrolled actuary. Effective December 31, 2008, the System's Board of Directors approved the permanent freeze of the Plan.

Net periodic pension cost of the Plan is composed of the following for the years ended June 30:

	<u>2017</u>	<u>2016</u>
Interest cost	\$ 6,575	\$ 7,534
Expected return on plan assets	(7,704)	(8,729)
Amortization of net loss	<u>4,742</u>	<u>3,859</u>
Net periodic pension cost	<u>\$ 3,613</u>	<u>\$ 2,664</u>

The components of net periodic postretirement benefit cost other than the service cost component are included in the line item unrealized loss on non-service components of net period pension cost in the accompanying consolidated statements of operations as a non-operating loss.

The amounts accumulated in unrestricted net assets as of June 30 follow:

	<u>2017</u>	<u>2016</u>
Accumulated unrealized loss on pension	<u>\$ 43,633</u>	<u>\$ 54,064</u>
Gain (loss) recognized in unrestricted net assets	<u>\$ 10,430</u>	<u>\$ (6,869)</u>

Approximately \$3,442,000 of the net loss is expected to be amortized in fiscal 2018.

**DeKalb Regional Health System, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (all tabular amounts in thousands)**

Weighted average assumptions used to determine the net periodic pension cost for fiscal 2017 and 2016 follow:

	<u>2017</u>	<u>2016</u>
Discount rate	3.81%	4.56%
Rate of increase in future compensation levels	N/A	N/A
Expected long-term rate of return on plan assets	4.95%	5.50%

The following table presents a reconciliation of the beginning and ending balances of the Plan's projected benefit obligation, the fair value of plan assets, funded status of the Plan, and the accumulated benefit obligation at June 30:

	<u>2017</u>	<u>2016</u>
Change in benefit obligations:		
Benefit obligation at beginning of year	\$ 176,216	\$ 168,693
Interest cost	6,575	7,534
Benefits paid	(7,373)	(14,136)
Actuarial loss	<u>(5,497)</u>	<u>14,125</u>
Benefit obligation at end of year	<u>169,921</u>	<u>176,216</u>
Change in plan assets:		
Fair value of plan assets at beginning of year	\$ 165,472	167,481
Actual return on plan assets	7,895	12,127
Benefits paid	<u>(7,372)</u>	<u>(14,136)</u>
Fair value of plan assets at end of year	<u>165,995</u>	<u>165,472</u>
Funded status of the Plan	<u>(3,926)</u>	<u>(10,744)</u>
Accrued pension cost at end of year	<u>\$ (3,926)</u>	<u>(10,744)</u>

Weighted average assumptions used to determine benefit obligations in the accompanying consolidated balance sheets for fiscal 2017 and 2016 follow:

	<u>2017</u>	<u>2016</u>
Discount rate	3.95%	3.81%
Rate of increase in future compensation levels	N/A	N/A

The increase in the discount rate decreased the benefit obligation by approximately \$3,100,000 at June 30, 2017 compared to June 30, 2016. The changes in mortality table which were updated to use the MP-2016 projection scale decreased the benefit obligation by \$2,600,000 for 2017. The plan's assets earned a return of \$7,900,000, which was \$200,000 more than expected the expected return in 2017 compared 2016. The changes in census data increased the benefit obligation by approximately \$200,000 at June 30, 2017 compared to June 30, 2016.

**DeKalb Regional Health System, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (all tabular amounts in thousands)**

Estimated future benefits expected to be paid follow:

Year ending June 30:

2018	\$	7,659
2019		8,014
2020		8,322
2021		8,592
2022		8,909
2023-2027		48,501

The System does not expect to contribute to the Plan during fiscal year 2018.

The current target allocations for the Plan's assets follow:

	<u>Minimum</u>	<u>Target</u>	<u>Maximum</u>
Equity securities	15%	26%	35%
Fixed income	55%	70%	85%
Alternatives	- %	4%	10%
Cash	- %	- %	5%

To develop the estimate for the expected long-term rate of return for the actuarial measurement, the System considered the historical returns and the future expectations of returns for each asset class, as well as the target asset allocation of the pension portfolio.

The investment strategy of the Plan is to ensure, over the long-term life of the Plan, an adequate pool of assets along with contributions by the System to support the benefit obligations to participants, retirees, and beneficiaries. The System desires to achieve market returns consistent with a prudent level of diversification. All investments are made solely in the interest of the Plan's participants and beneficiaries for the exclusive purposes of providing benefits to such participants and their beneficiaries and defraying the expenses related to administering the Plan.

The target allocation of all assets is designed to reflect proper diversification in order to reduce the potential of a single security or single sector of securities having a disproportionate impact on the portfolio. The System utilizes an outside investment consultant and various publicly traded mutual funds to implement its investment strategy. Investment performance of plan assets is reviewed quarterly and the investment policy statement is reviewed annually to determine continued applicability.

**11. Concentrations of Credit Risk**

The System grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor agreements. The mix of gross receivables from patients and third-party payors as of June 30 follow:

	<u>2017</u>	<u>2016</u>
Medicare	29%	29%
Medicaid	13%	13%
Other third-party payor	35%	30%
Patients	<u>23%</u>	<u>28%</u>
	<u>100%</u>	<u>100%</u>

## 12. Commitments and Contingencies

### *General and Professional Liability Insurance*

The System is covered by a claims-made program with self-insured retention of \$6,000,000 per occurrence and \$35,000,000 aggregate annual limit. Commercial insurance has been obtained to provide for excess coverage.

Self-insurance reserves related to general and professional liability claims totaled approximately \$20,098,000 and \$17,908,000 at June 30, 2017 and 2016, respectively. Such amounts include estimates of the ultimate costs for both reported claims and claims incurred but not reported through June 30, 2017, as applicable to the general and professional liability self-insurance plans for the System. Independent actuarial consultants are retained to assist the System in determining both its financial reporting reserves and the amounts to be deposited into the trust fund. Accrued losses were recorded at a 50% confidence level and discounted at 2.0% at June 30, 2017 and 2016.

### *Other Self-Insurance Reserves*

The System self-insures a portion of its workers' compensation liability exposure up to \$450,000 per claim. Reserves for the self-insurance program are established to provide for estimated exposure to loss arising from both reported and unreported workers' compensation claims and related legal expenses through June 30, 2017. Such reserves totaled approximately \$1,880,000 and \$1,681,000 at June 30, 2017 and 2016, respectively. Commercial insurance has been obtained on a claims-incurred basis to provide for excess coverage.

The System is self-insured for employee health benefits. At June 30, 2017 and 2016, related reserves totaled approximately \$2,446,000 and \$1,830,000, respectively, which includes estimates of the ultimate costs for claims incurred but not reported through June 30, 2017.

### *Operating Leases*

The System leases various equipment and facilities under operating lease agreements that expire at various dates beyond fiscal 2021. Total rent expense in fiscal years 2017 and 2016 for all operating leases was approximately \$6,470,000 and \$6,267,000, respectively.

Future minimum lease payments under operating leases that have initial lease terms in excess of one year are as follows:

#### Year ending June 30:

2018	\$	4,158
2019		3,749
2020		3,173
2021		1,924
2022		1,689
Thereafter		<u>3,981</u>
	\$	<u>18,674</u>

### *Litigation*

The System is involved in litigation arising in the ordinary course of business. Management believes that, based on the available information and consultation with legal counsel, recorded reserves are adequate to address the risk of loss related to resolution of these uncertainties. However, it is reasonably possible that the ultimate resolution of these matters could differ from management's estimates and have a significant impact on the financial position and results of operations of the System.

**DeKalb Regional Health System, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (all tabular amounts in thousands)**

---

**13. Functional Expenses**

The System does not present expense information by functional classification because its resources and activities are primarily related to providing healthcare services. Further, since the System receives substantially all of its resources from providing healthcare services in a manner similar to a business enterprise, other indicators contained in these consolidated financial statements are considered relevant in evaluating how well management has discharged their stewardship responsibilities.

**14. Fair Value of Financial Information**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The System has categorized its financial instruments into a three-level fair value hierarchy based on the priority of inputs used in related valuation techniques. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instruments fall within multiple levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

The System did not hold any Level 3 securities as of June 30, 2017 and 2016. The System's accounting policy is to recognize transfers between levels of the fair value hierarchy on the date of the event or change in circumstances that caused the transfer. There were no transfers into or out of Level 1 or Level 2 for the years ended June 30, 2017 and 2016.

When available, the System uses quoted market prices to determine fair value, and classifies such items as Level 1. The System's Level 2 securities include bonds whose fair values are determined by independent vendors. The vendors compile prices from various sources and may apply matrix pricing for similar bonds or loans where no price is observable in an actively traded market. If available, the vendor may also use quoted prices for recent trading activity of assets with similar characteristics to the bond being valued. The System's Level 2 securities also include nontraded funds whose underlying securities are known and would otherwise be considered Level 1.

The System's alternative investments are measured at net asset value as a practical expedient for fair value and are accordingly excluded from the fair value hierarchy. These investments are funds of funds investments. The fund invests in investee funds at fair value which is determined in good faith by the investment manager in accordance with U.S. GAAP. The fund managers employ a variety of investment strategies and hedging techniques to achieve long-term capital growth, while seeking to reduce volatility. These funds achieve diversification by allocating investment funds across various money managers or market groups, using different trading methods, and focusing on different markets worldwide. The recorded market price for the multi-strategy hedge fund investment is based on the net asset value of the System's investment in the limited liability company. Underlying assets of these investment funds include collective funds, hedge funds, and other types of private investments with underlying investment holdings.

**DeKalb Regional Health System, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (all tabular amounts in thousands)**

	<u>Fair Value at 6/30/2017</u>	<u>Fair Value at 6/30/2016</u>	<u>Unfunded Commitments</u>	<u>Other Redemption Restrictions</u>	<u>Redemption Notice Period (ii)</u>
<b>Included in assets limited as to use:</b>					
Archstone Offshore Fund, LTD (i)	\$ 4,739	\$ 8,130	None	Initial 1 year lock-up; period has lapsed for 97% of fund	90 days' notice prior to last day of each 4 quarter period
<b>Included in investments:</b>					
Archstone Offshore Fund, LTD (i)	\$ 309	\$ 413	None	Initial 1 year lock-up; period has lapsed for 97% of fund	90 days' notice prior to last day of each 4 quarter period
<b>Included in pension plan assets:</b>					
Archstone Offshore Fund, LTD (i)	\$ 2,774	\$ 2,588	None	Initial 1 year lock-up; period has lapsed for 97% of fund	90 days' notice prior to last day of each 4 quarter period

- (i) The Archstone Offshore Fund consists of 16 underlying funds. The fund's investment objective is to achieve long-term growth of capital with reduced volatility by allocating its capital among various money managers that, as a group, employ a variety of investment techniques and strategies. The fund will not attempt to gain control over any portfolio fund and will generally limit its investments so that it will hold no more than 10% of the outstanding interests of any one portfolio fund. In addition, the fund will generally invest no more than 25% of its assets in any one portfolio fund.
- (ii) If the aggregate amount requested by investors to be redeemed on any redemption date is greater than 25% of the net asset value of the total fund, the Fund Board may reduce the amount of shares to be redeemed pro rata among investors so that the aggregate amount to be withdrawn equals 25% of the net asset value of the fund.

---

***Other Financial Instruments***

Except for long-term debt, the carrying amounts for other financial instruments approximate their estimated fair values at June 30, 2017 and 2016 due to their short-term nature or based on the measurements described below.

Long-term Debt:

The System's long-term debt consists of publicly traded municipal bonds. These bonds are not considered to be traded in an active market, as transactions generally do not take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of long-term debt instruments has been estimated using historical traded prices for the System's bonds, as well as yield curves for bonds having similar character, collateral, and ratings. No adjustment for fair value measurements is reflected or required in the accompanying consolidated balance sheets. The fair value of long-term debt is measured using Level 2 inputs and totaled approximately \$191,073,000 and \$204,159,000 at June 30, 2017 and 2016, respectively.

Asset Retirement Obligation:

The System's asset retirement obligation relates to its legal obligation over the removal of asbestos when the System renovates or retires the impacted buildings. The System employed an independent third-party to develop the initial fair value of the obligation, which includes the total estimated removal costs, discounted using an expected inflation rate, estimated discount rate, and expected years until renovation for each respective building. There have been no buildings sold or renovated which have resulted in the removal of asbestos in satisfaction of the related obligation. Further, there have been no additional building purchases that would require an additional obligation for asbestos removal. Therefore, the only change in the estimated fair value of the obligation is the accretion to present value each period. As such, the fair value of the asset retirement obligation approximates its carrying value using Level 2 inputs.

Interest Rate Swaps:

The System's interest rate swaps were executed over the counter and are valued using the net present value of the cash flow streams since no quoted market prices exist for such instruments. The System employs an independent third-party to perform a mark-to-market valuation assessment on the swaps to assess the reasonableness of the estimated values. The interest rate swaps are reported at fair value using Level 2 inputs.
